

## Anaplan Connect

Streamline and automate integration actions with Anaplan Connect

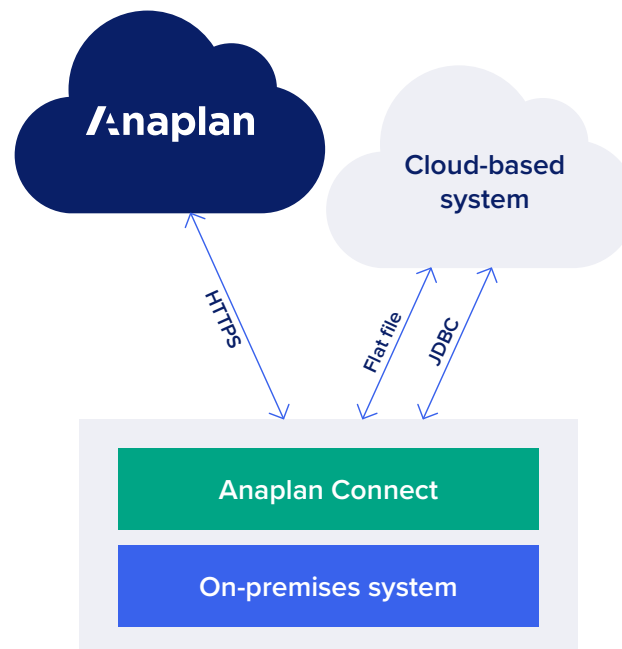

Anaplan Connect is an on-premises Java utility that automates and runs integration scripts for imports and exports. Users can install it on a dedicated computer or server behind their network firewall and begin to write and execute integration scripts. Anaplan Connect is flexible, having scripts that can be scheduled using either a user's primary operating system or a third-party scheduler.

### Anaplan Connect's values

**Simple** to download and set up, allowing you to start importing and exporting data in minutes.

**Adaptable** to multiple types of scheduling tools, and can be used in conjunction with flat files and can connect with any relational database with JDBC.

**Flexible** tool that allows you to build on top of simple, out-of-the-box templates and scripts.

### Benefits

- Free to use and download in a zip file.
- No middleware licenses required.
- Lightweight with a low footprint that requires minimal CPU memory.
- Designed for both technical and non-technical users. Customers can use Command Line to run their scripts for Anaplan integrations.
- Easy and quick deployment—set up an Anaplan Connect job in just a few minutes.
- Simple with access to templates that you can use to start imports and exports.

## Key features and capabilities

### Enterprise scale

The Anaplan platform connects your entire enterprise, scaling as you grow and handling real-time changes at any size. Calculations stay consistent and rapid for all data sets and any number of users.

### Extensibility

The Anaplan platform collects and analyzes data in a single location, enabling both high-level and granular analyses and facilitating data-sharing with all stakeholders. APIs, ETL connectors, and built-in integrations easily communicate with other solutions.

### Planning and modeling

Our in-memory Hyperblock<sup>®</sup> engine enables multi-dimensional scenario modeling with unlimited constraints, allowing companies to model even the most complicated business scenarios and stay ahead of changes in the market. The platform maintains 100% consistency across all model changes.

### Engaging user experience

The Anaplan user experience puts the whole enterprise on a single platform. Model-building is intuitive and requires zero coding knowledge. The whole company shares real-time data across devices and solutions, enabling rapid decision-making and unprecedented flexibility.

### Security

Robust protection keeps your business's data safe. Best-in-class security and compliance include BYOK, role-based access control, user management, SSO support with SAML 2.0 compliance, and data encryption at rest.

### Intelligence

Embedded optimization including Optimizer<sup>™</sup>, over thirty predictive algorithms, and evolving AI capabilities transform complicated inputs into actionable recommendations. Machine learning intelligence speeds up decision-making across use cases.

## About Anaplan

Anaplan (NYSE: PLAN) is a transformative way to see, plan, and run your business. Using our proprietary Hyperblock<sup>™</sup> technology, Anaplan lets you contextualize real-time performance, and forecast future outcomes for faster, confident decisions. Because connecting strategy and plans to collaborative execution across your organization is required to move business FORWARD today. Based in San Francisco, we have 20 offices globally, 175 partners and more than 1,700 customers worldwide.
